George cares

Movie star George Clooney admits he feels sorry for young Hollywood stars today, saying he couldn't handle the pressure they

face. Clooney says he's sympathetic to troubled stars Paris Hilton and Lindsay Lohan because he can't believe the amount of attention they receive from the media. He says, "If I were as famous as some of those kids who are on the magazines right now at 21 years old, I'd be shooting crack under my eyeball... but they'll get through it."

Baby Alert!

Borat funnyman Sacha Baron Cohen and his Australian fiancée Isla Fisher (*Wedding Crashers*) are set to become first-time parents after blurting out the exciting news at a Los Angeles bar. The couple made the announcement after Fisher felt she had to reveal her big news after sparking suspicion when she turned down alcohol and just drank water.

Dating?

Britney Spears, 25, is reportedly dating her drug counselor John Sundahl, 38. Sundahl, a wealthy real estate devel-

oper, was recommended to Spears by someone at Promises, the rehab center where Spears stayed. Spears reportedly met with Sundahl to discuss the twelve-step program but sources say the conversation got intimate. "Britney and John ended up making out beside the pool and Britney acted like she didn't care who saw her," a source revealed. Sundahl denies the reports but sources say Kevin Federline confirms they are dating as well as Spears' mom Lynne, who is said to approve.

Nicole to marry?

Rumors are flying that Nicole Richie has proposed marriage to her Good Charlotte rocker boyfriend Joel Madden. To further fuel reports, Richie was recently spotted wearing a large diamond on her ring finger at a party. *The Simple Life* star is also rumored to be pregnant after paparazzi photos showed Richie sporting a small belly. Chances are she just ate a meal that day.

Splitsville

Though sources say Reese Witherspoon, 31, and Jake Gyllenhaal, 26, who began dating in March, had been getting serious in recent weeks (he bonded with her two kids and met her mom), it's now reported that the couple have called it quits. "She cares for Jake, but the timing is crappy," says a source. "She doesn't have enough emotional space for him right now." A Gyllenhaal source says that the *Brokeback Mountain* star recently told a buddy: "I'm single."

Rocking House

Christina Aguilera, 26, and husband Jordan Bratman, 30, have made an offer on Ozzy Osbourne's six-bedroom, Beverly Hills mansion. An insider reports that the home, which was featured on MTV's reality show *The Osbournes*, is perfect because "they want a place to start a family."

Again, don't hassle the Hoff!

David Hasselhoff has won sole custody of his teenage daughters after a lengthy battle with his ex-wife Pamela Bach. The Hoff, host of *America's Got Talent*, gloated to the press after recent efforts to soil his name were quashed. Most recently, a video of a drunken Hasselhoff surfaced showing him crawling on a Las Vegas hotel room floor, slurring promises to stop drinking. He feared the tape would be damaging to his case. According to

website Tmz.com, Hasselhoff's ex was spotted moments after the actor emerged victorious, sobbing in a courthouse corridor. She was overheard telling her lawyer, "I just lost my kids." While Bach was attempting to prove her husband was a desperate alcoholic and an unfit father, Hasselhoff claimed his ex had a long history of drug abuse. Their divorce and custody battle began in 2005. They were officially divorced last year.

SOMETHING'S COOKING THIS SUMMER.

Stars have fun in the sun

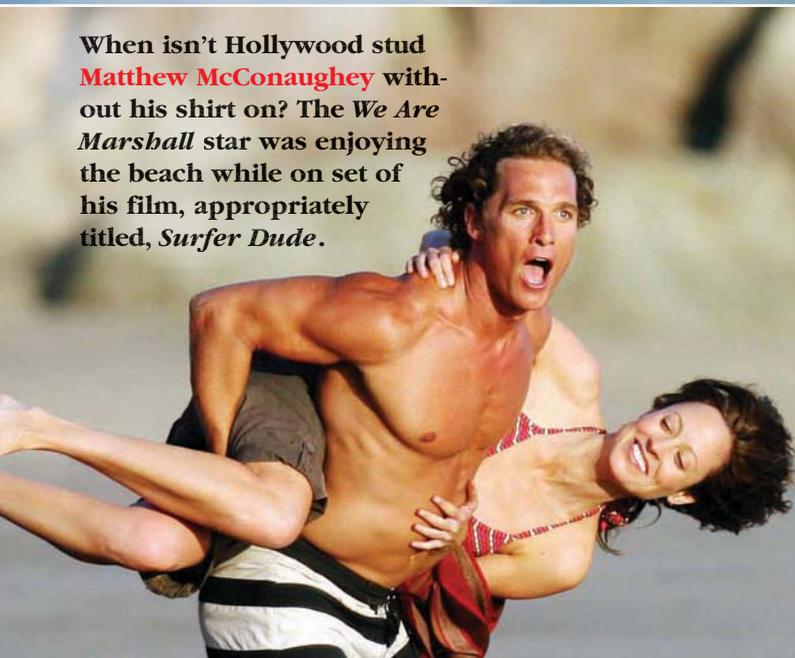

No one can dispute **Jessica Alba's** hotness. *The Fantastic Four* star has no less than six films coming out this year.

W

HETHER on set or on vacation, these stars can't get enough of the sea, sun and sand.

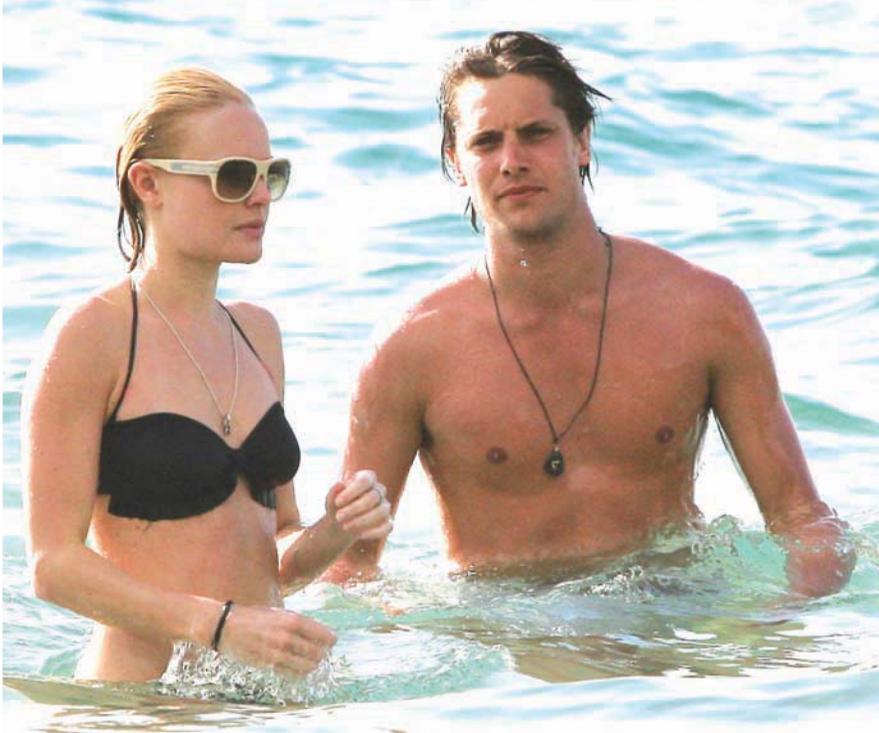

Since her split from *The Strokes* drummer **Fabrizio Moretti**, **Drew Barrymore** is stronger than ever. The *Lucky You* star, seen here on vacation in Hawaii, was recently named UN Ambassador *Against Hunger* and signed on to be the face of *Cover Girl*.

The single **Cameron Diaz** enjoys a time out with friends in Hawaii earlier this year. Since her split from Justin Timberlake, Diaz has been linked to singer Tyrese, surfer Kelly Slater, Djimon Hounsou and most recently *Mindfreak's* Criss Angel.

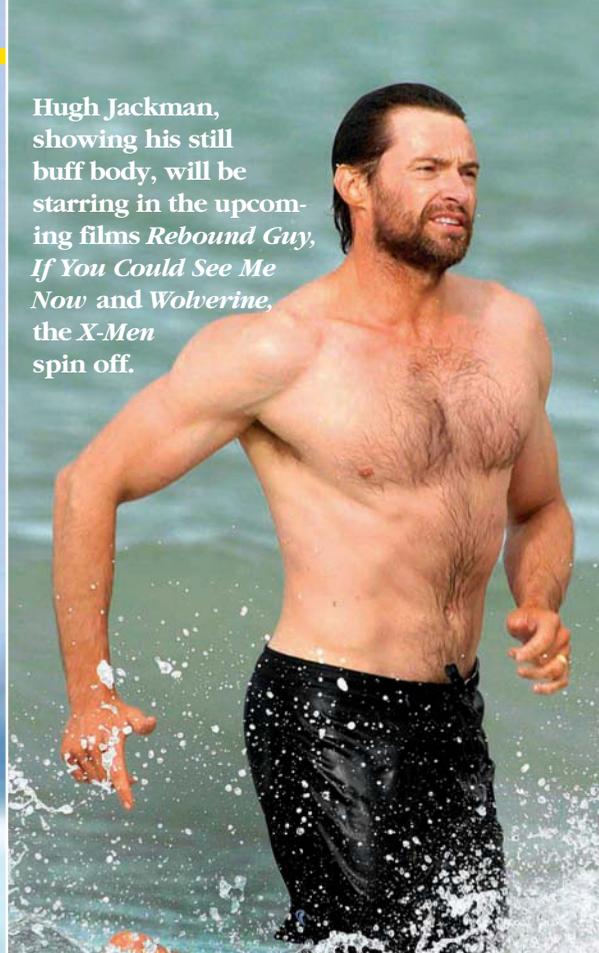

When isn't Hollywood stud **Matthew McConaughey** without his shirt on? The *We Are Marshall* star was enjoying the beach while on set of his film, appropriately titled, *Surfer Dude*.

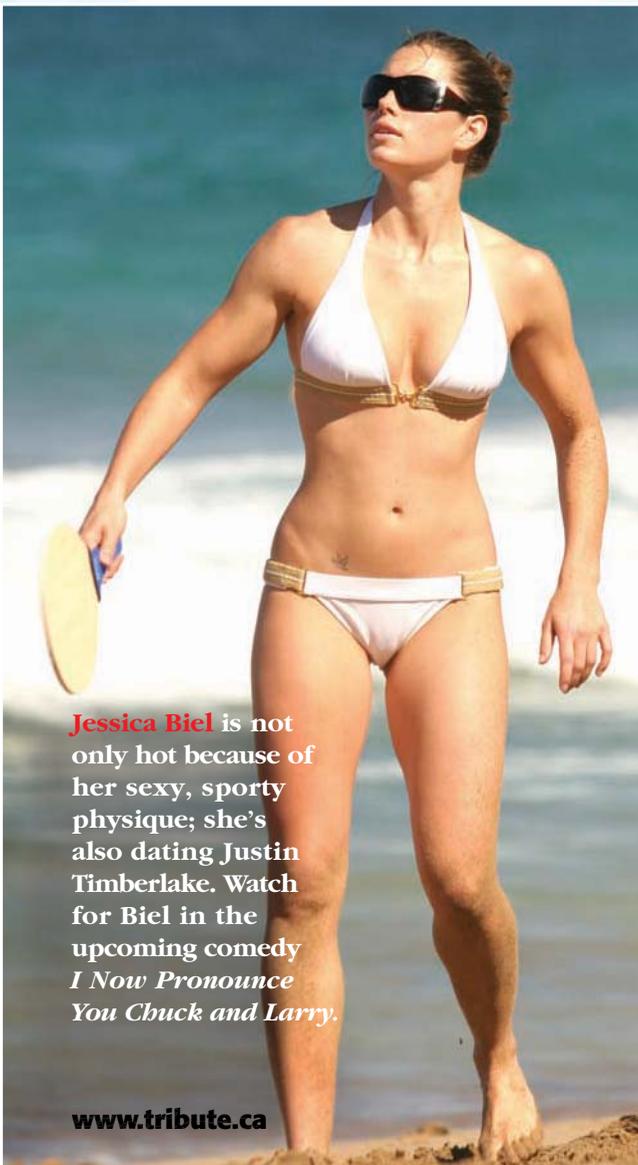

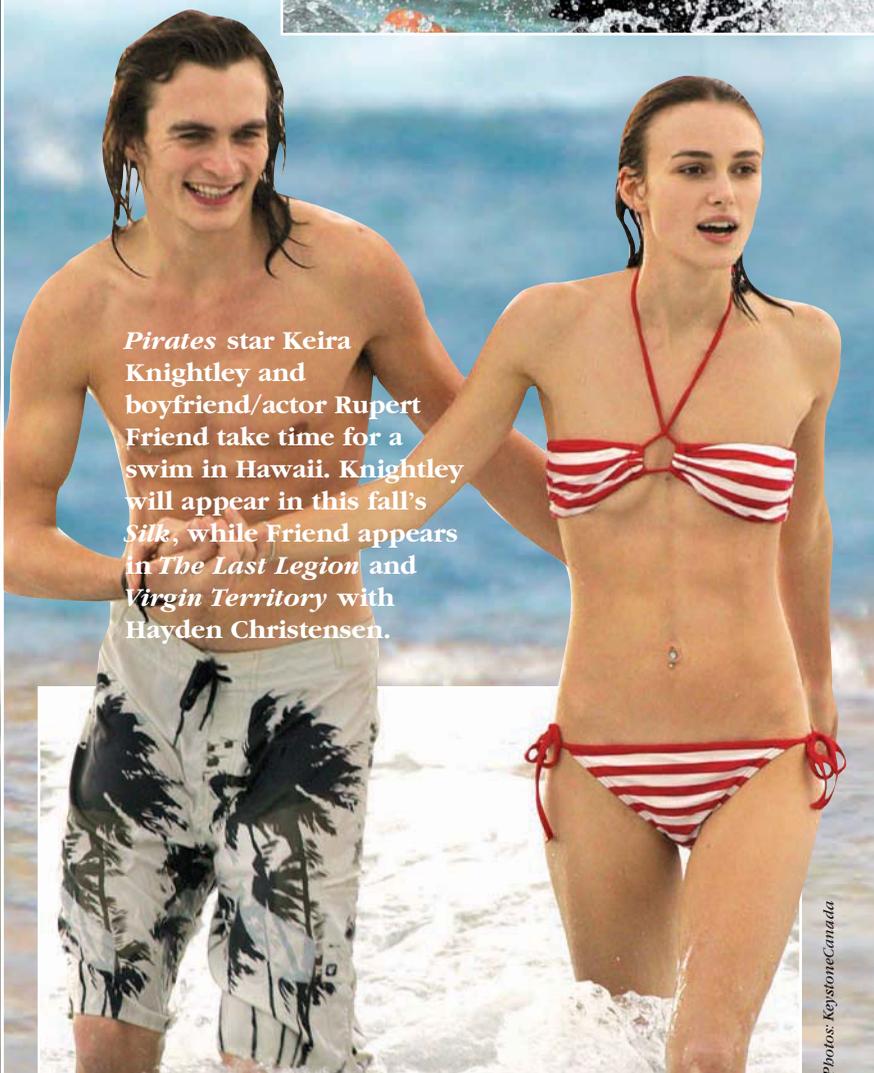

Orlando who? **Kate Bosworth** enjoyed a vacation with her new beau, supermodel **James Rousseau**. Bosworth will star in the upcoming *The Girl in The Park* with Sigourney Weaver.

Hugh Jackman, showing his still buff body, will be starring in the upcoming films *Rebound Guy*, *If You Could See Me Now* and *Wolverine*, the *X-Men* spin off.

Jessica Biel is not only hot because of her sexy, sporty physique; she's also dating Justin Timberlake. Watch for Biel in the upcoming comedy *I Now Pronounce You Chuck and Larry*.

Pirates star Keira Knightley and boyfriend/actor Rupert Friend take time for a swim in Hawaii. Knightley will appear in this fall's *Silk*, while Friend appears in *The Last Legion* and *Virgin Territory* with Hayden Christensen.

In **70%** of cases genital herpes is transmitted

I'm very careful, and I always thought I was doing everything possible to protect my girlfriend from genital herpes. But when I learned that I could be contagious even when I don't have symptoms, I was shocked.

I asked my doctor, and he explained that genital herpes is transmitted through something called *viral shedding*. Too small to be seen, viral shedding can happen anytime, anywhere in the "boxer short" area of my body. Thanks to my doctor I now know that I can do more to reduce my risk of passing it on.

* Based on a clinical study to determine the risk of spreading genital herpes (GH) in 144 heterosexual couples in which one partner had GH, and the other did not. Couples were followed for a median 334 days and were counselled to abstain from skin to skin contact in the presence of lesions. Couples were educated on the potential protection offered by condoms during periods when there were no visible signs or symptoms.

Who knew?

when there are no visible signs or symptoms.*

THERE ARE ***MORE*** WAYS TO REDUCE THE RISK OF TRANSMITTING
GENITAL HERPES THAN YOU MAY REALIZE.
ASK YOUR DOCTOR.

Summer movie stars

Jessica Alba, Jessica Biel, Julia Stiles and Catherine Zeta-Jones on the big screen. Need we say more?

Good Luck Chuck

THERE's no doubt that Jessica Alba is hot. Yet the incredibly sexy star is on a mission to be taken seriously as an actress. "Right now I'm just exploring what my contribution to this business is other than wearing a bikini and getting caught by the paparazzi," Alba tells *GQ*. "What happens when the looks fade? If I don't establish myself as someone who can act a part rather than look the part, I will soon be finished." But Alba's plan seems to be working. The *Fantastic Four* star will be in no less than six films this year.

Admittedly, Alba excels at playing roles in tights—

her breakthrough role as Max Guevera in *Dark Angel* is proof. But tights are not slated for her upcoming projects. Up next for Alba is the rom-com *Good Luck Chuck*, costarring funnyman Dane Cook. In the film, Cook plays Charlie Kagan, a man who suffers from a curse of being a woman's good luck charm; every woman he's ever slept with has found true love with the next guy after him. Before he knows it, Charlie has women lining up for a quickie. But when he meets Cam (Alba), an accident-prone penguin specialist, he realizes he must break the curse or lose her. Here, Alba gets to play on her physical comedic skills à la Cameron Diaz, which, according to Alba, comes easily being a self-professed dork in real life.

Jessica Alba

Next up for Alba is the thriller *The Eye*, (originally set for Renée Zellweger), *Awake* a thriller starring Hayden Christensen, the dramedy *Bill*, (a film that Lindsay Lohan parted with), the comedy *The Ten* and *Sin City 2*, which Alba says "sounds pretty badass" as writer Frank Miller beefs up material for her character Nancy.

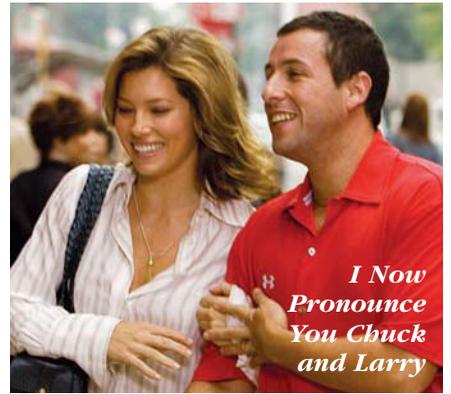

These are films that Alba proclaims just may help film producers in "getting past her hotness."

JESSICA BIEL says she's also feeling the effects of being too sexy. You would think being voted *Esquire's* "Sexiest Woman Alive" would propel a star's career but not according to Biel. The 25-year-old Minnesota native says the honor actually hurt her career. "I thought the *Esquire* cover was going to be really positive for my career," she says. "But it wasn't, really. Parts I really want aren't going to me, like *The Other Boleyn Girl* with Scarlett Johansson and Natalie Portman. There's still the occasional script that the director doesn't want to see you for."

Despite missing out on certain films, it looks like Biel's career is hitting a high note. Last year she earned some acting cred costarring with Ed Norton and Oscar-nominee Paul Giamatti in *The Illusionist*, a part Biel says she vied hard for. This summer, Biel stars alongside more Hollywood heavyweights: Adam Sandler and Kevin James in *I Now Pronounce You Chuck and Larry*.

Jessica Biel

Chuck and Larry—a comedy about two firefighters who pretend to be gay in order to gain domestic partner benefits—is something Biel's been longing to do.

Biel plays a lawyer, albeit a sexy one. "Jessica is a great actress who also happens to be smart, sweet and funny," says Sandler. "She's capable of attaining the Julia Roberts crown," says *Chuck and Larry* director Dennis Dugan referring to Biel's comedic timing.

Up next for Biel, *A Woman of No Importance* and *Powder Blue*.

JULIA STILES has come a long way since her breakthrough performance in *10 Things I Hate About You*, costarring then up-and-comer Heath Ledger. Most recently, Stiles added producer and director to her name and completed her first short film *Raving*, which she also wrote. After appearing in some indie flicks, Stiles returns to the big screen in one of the summer's hottest blockbusters, *The Bourne Ultimatum*.

Having appeared in the first two spy thrillers, Stiles has managed to parlay her small role as Nicky into a major one. So much so, that in *Ultimatum*,

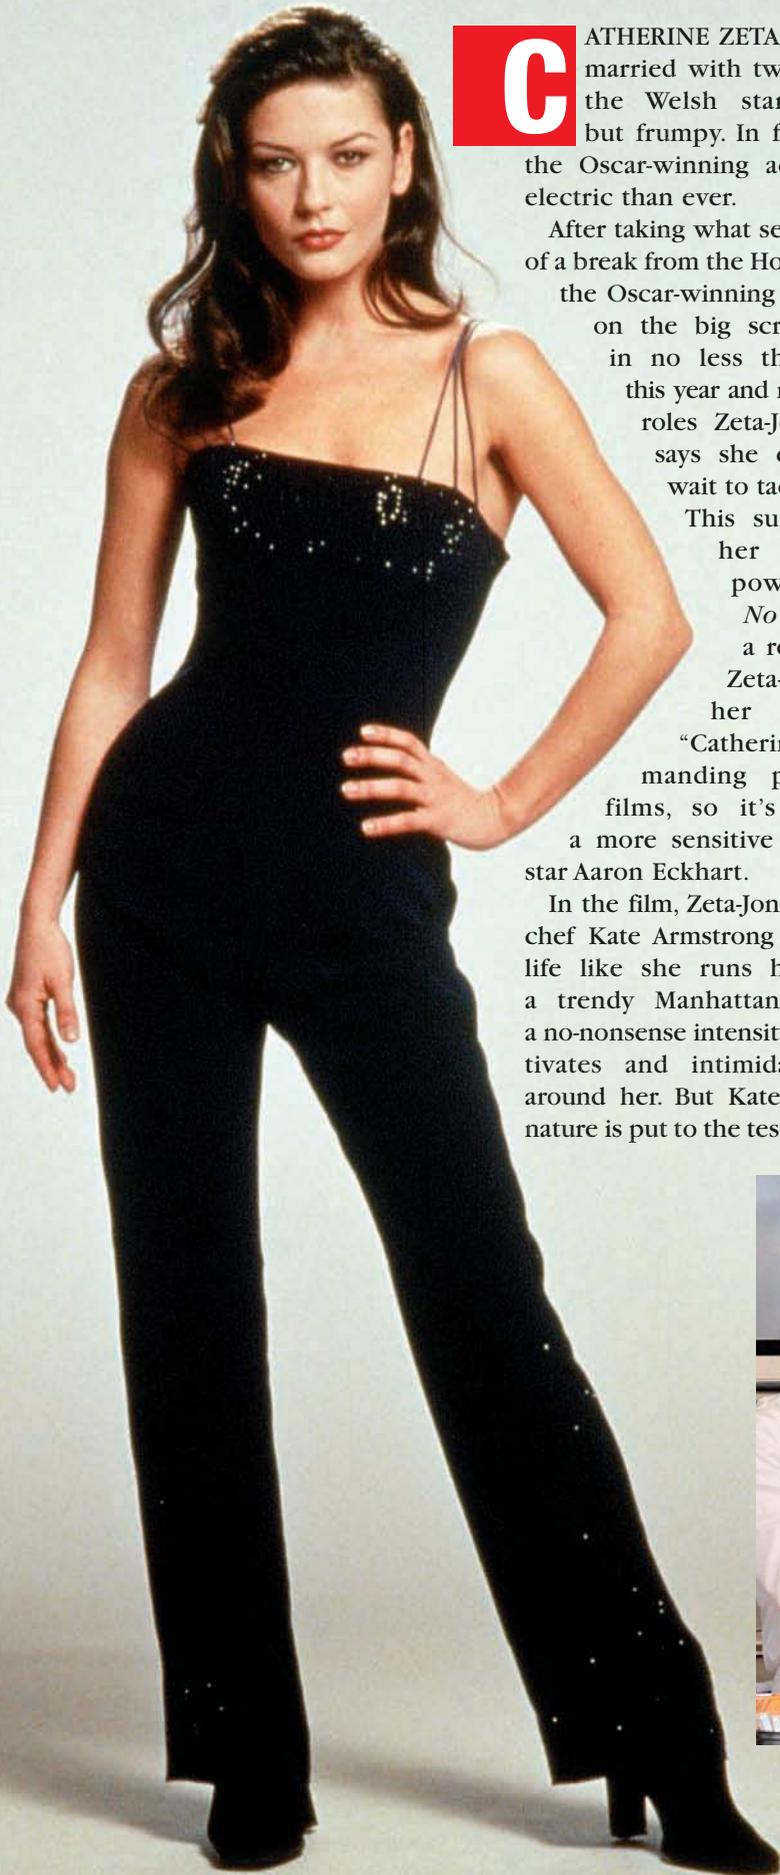

she'll be playing Matt Damon's love interest. "Luckily for me, they decided to explore my character a little bit more in the second one, and, more in the third one," Stiles says. "You feel like it's a trilogy that is complete. It's not just one movie and then another, and then another. Characters you didn't pay much attention to in the first one, you realize they are much more significant as the trilogy goes on."

Julia Stiles

Ultimatum sees Jason Bourne determined more than ever to seek his identity once and for all. On the run and having lost his memory and the one person he loved, he is undeterred by the barrage of bullets and a new generation of highly trained killers. His adventure takes him through Moscow, Paris, Madrid and London to Tangier and New York City as he continues his quest—all while trying to outmaneuver the scores of cops, federal officers and Interpol agents who are still hunting him.

CATHERINE ZETA-JONES may be married with two children but the Welsh star is anything but frumpy. In fact, these days the Oscar-winning actress is more electric than ever.

After taking what seems to be a bit of a break from the Hollywood scene, the Oscar-winning actress is back on the big screen appearing in no less than four films this year and next; roles Zeta-Jones says she can't wait to tackle.

This summer we see her play a high-powered chef in *No Reservations*, a role that forced Zeta-Jones to show her vulnerability. "Catherine has a commanding personality in films, so it's nice to see a more sensitive side," says co-star Aaron Eckhart.

In the film, Zeta-Jones plays master chef Kate Armstrong who lives her life like she runs her kitchen at a trendy Manhattan eatery—with a no-nonsense intensity that both captivates and intimidates everyone around her. But Kate's perfectionist nature is put to the test when she sud-

denly inherits her 9-year-old niece Zoe (played by Oscar-nominated actress Abigail Breslin). When Eckhart's character, Nick Palmer, enters her kitchen as a high-spirited and freewheeling sous-chef, Kate's world is turned upside down when the chemistry between the unlikely pair becomes undeniable.

To prepare for the role Zeta-Jones chopped and sautéed her way through

Catherine Zeta-Jones

the fancy Manhattan kitchen at the Soho restaurant, Fiamma, to hone her much needed culinary skills. (A self-professed culinary disaster, she once set her own kitchen aflame while attempting to cook.) Zeta-Jones also served a table of high rollers which she found challenging when trying to remember the specials. "I lost track and forgot the dessert," Zeta-Jones tells *InStyle*. "So I said, 'It's a bombe filled with ice cream, and it's delicious, so just have it!'"

Zeta-Jones will appear next in the film *Death Defying Acts*, a story about the great Harry Houdini who offers a prize to anyone who can contact the dead and reveal the last words uttered by his dying mother. Zeta-Jones plays Mary, a struggling Scottish psychic, who decides to out-con the magician.

Orlando Bloom

It's good to be **Orlando Bloom**. Handsome and talented, he can also brag that he has been in not one, but two of the most successful film trilogies of *all time*. Not bad for a young actor who had done little film work before landing the role of the blond, blue-eyed elf Legolas in *Lord of the Rings* as well as the swashbuckling Will Turner in *Pirates of the Caribbean*. In between blockbusters, Bloom kept busy with a few lead roles (*Elizabethtown*, *Kingdom of Heaven*, *Troy*) and by dating some of Hollywood's hottest leading ladies including *Superman's* Kate Bosworth. Bloom is now on the market after splitting with Bosworth last September, but for how long?

1 Bloom was once romantically linked with model-turned-make-up artist **JEMMA KIDD**. The British tabloid mainstay (and sister of supermodel Jodie Kidd) and Bloom were even rumored to have been engaged. In 2005 Kidd got hitched to Arthur Wellesley, Earl of Mornington, giving her the very fancy title of Countess of Mornington.

2 **KIRSTEN DUNST** became one of young Hollywood's most notorious serial daters after splitting with Jake Gyllenhaal. And it appears she prefers guys with a mop of hair. First up was Bloom who she was said to have had a tryst with on the set of *Elizabethtown*. In just the past year the actress has been linked with a succession of follicly blessed hotties including Adam Brody, Adrian Grenier and The Strokes' Fabrizio Moretti. Most recently, she's been seen on the arm of Razorlight rocker Johnny Borrell, who yes, also fits the description.

3 **KATE BOSWORTH** and Bloom dated for four years yet they rarely hit the red carpet together. The two met while posing for a GAP ad in 2002. In the end, their busy schedules were said to be the reason the two split. As if dealing with the break-up wasn't enough, Bosworth was recently tabloid fodder due to an unexplained weight loss. The *Superman* actress is looking better than ever these days perhaps because she is dating hot British model, James Rousseau.

4 **SIENNA MILLER** is no stranger to "Sex Degrees." The British actress will always be known for her role in "Nannygate" in which her then fiancé, Jude Law, admitted he had slept with his children's nanny. Classy. In the wake of the scandal, Miller was rumored to have had a one-night stand with Law's buddy and her *Layer Cake* co-star Daniel Craig. She also was reported to have sought the comfort of Bloom, whom she dated briefly well before the two became famous. Miller, of course, kicked Law to the curb and has since been linked with James Franco and Hayden Christensen.

Miller is now dating musician/model Jamie Burke whose dating past includes Kate Moss and Lindsay Lohan.

5 Who hasn't **PENÉLOPE CRUZ** dated? The Oscar nominee has seemingly put a halt to dating Hollywood's leading men probably because her last few projects have been filmed in her native Spain. For those who have not kept count, Cruz's past flings have said to include Nicolas Cage and Matt Damon while she had long-term relationships with Tom Cruise and Matthew McConaughey. She was spotted getting cozy with Bloom on several occasions earlier in the year but Cruz recently moved on to the recently single Josh Hartnett.

6 **JOSH HARTNETT** arrived on the Hollywood scene in 1998 with his high school sweetheart in tow. As soon as Hartnett hit the big time, he romanced gorgeous models (Giselle Bündchen) and hot actresses (Monet Mazur). He soon became the guy most envied by men everywhere by dating his *Black Dahlia* co-star Scarlett Johansson. Shortly after the two reportedly bought a New York apartment together, they split. Since then, the actor has been linked with Italian model Sveva Gualdi and most recently, Penélope Cruz.

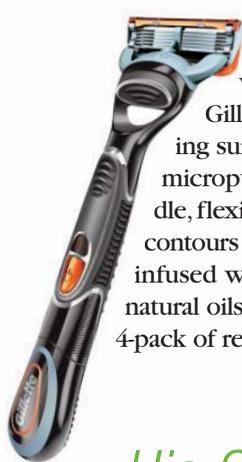

7 Sadly **LINDSAY LOHAN** is in the news more for her misdeeds than her dating ways or even her acting. La Lohan's most recent fling is said to be "You're Beautiful" crooner James Blunt. The two were reportedly together the night Lohan was cited for DUI after her most recent car accident. Blunt recently broke up with Petra Nemcova (the *Sports Illustrated* model who survived the tsunami in Thailand). Here's a short list of just some of the men Lohan has been romantically linked to in the past year even if she was just snapped sitting beside them: Stavros Niarchos (Paris Hilton's ex), Jude Law, Robbie Williams, Jamie Burke, Harry Morton and Pete Wentz. Phew.

8 In the wake of her split from Josh Hartnett, **SCARLETT JOHANSSON** got caught up in a love triangle involving Justin Timberlake and Jessica Biel. Johansson and Timberlake met on the set of his video for "What Goes Around..." and quickly became an item. Fresh from his split with Cameron Diaz, Timberlake was reportedly also romancing Biel around the same time. Reports say the singer and Biel are now in love, while Johansson has been spotted with Canadian boy Ryan Reynolds who ended his engagement to Alanis Morissette in February.

9 While they have not gone public, sources close to **ROSE MCGOWAN** are saying she and *Grindhouse* co-director Robert Rodriguez are a couple. The relationship between McGowan and Rodriguez, who has been married for 16 years and has five children, was called the "the worst-kept secret on the set." To make matters worse, Rodriguez's wife was on-set for the entire duration, as she served as co-producer on the film. The two are now separated but claim the split is amicable.

10 **MARILYN MANSON** (Brian Warner) may have a unique look but it sure gets the ladies. The "Beautiful People" rocker was involved with Rose McGowan for two years before marrying burlesque queen Dita Von Teese in 2005. Teese filed for divorce last December leaving the 38-year-old singer "devastated." He claimed his outlook changed when his friendship with 19-year-old actress Evan Rachel Wood (*Thirteen*) turned romantic and she told him she would die for him.

11 Since Justin Timberlake has moved on to Jessica Biel, **CAMERON DIAZ** is now doing the same. While she was reportedly dating one-time flame, surfer Kelly Slater, Diaz has now been spotted hanging out with *Mindfreak* magician Criss Angel. Angel has denied they are dating and said they are just friends with "no benefits." Angel was linked to actress Minnie Driver last year.

Diaz surfs in Hawaii

EVEN celebrities need a little rest and relaxation now and then. We tracked down a few favorite star vacation destinations.

Where does Paris Hilton go for a little retail therapy? Paris, France of course! "I always go shopping," she says. "I love going to Chanel and Dior in Paris because they have everything they don't have in Los Angeles."

Maria Bello prefers a relaxing trip to Italy. "It's a slower pace of life," she says. "To get up in the morning and have eggs from the hen house and wine for lunch, and have a stroll around the village and eat ice cream."

Sunny destinations are a natural choice for celebrities, especially Cabo San Lucas, Mexico. You can find

Cabo San Lucas is a hot spot for celebs

Sandra Bullock there, catching up with Keanu Reeves. "Oh, we're good buddies," Bullock says. "We vacation together in Cabo every September."

Nothing says vacation like a little sand and surf on the shores of Hawaii—a favorite of many stars including Drew Barrymore, Cameron Diaz and Owen Wilson. "Maui's beautiful," says Rosario Dawson, "The water was pretty freezing but we ended up doing a lot of waterfalls and natural pools kind of thing. It was so gorgeous."

If beaches aren't your thing, you could try the cold air of Alaska just like Teri Hatcher and her daughter. "We went hiking, we both jumped in the 50-degree water," Hatcher says. "We saw a moose. She loved it."

Aries (MAR. 21 – APR. 20)

Challenges on the work front add laser intensity to the summer scenario. Fortunately, you revel in life on the edge! It'll take time, though, to identify and fix most of the problems. Best outlet: indulge in healthy feel-good activities and pamper yourself shamelessly. Your big break is coming soon.

Taurus (APR. 21 – MAY 21)

Get ready to put your cards on the table with an associate. You don't like face-offs, but this is one time you shouldn't avoid issues. Once things are out in the open, the way to success lies clear. Summer's saving grace: sky-high romance potential. Just try a little tenderness; your specialty.

Virgo (AUG. 24 – SEPT. 23)

Try to take a breather even though alone time is almost impossible to come by. An abundance of activity is punctuated by some (mostly pleasant) surprises. Expect blue skies and sunny days, with tiny lightning strikes to keep you on your toes. This summer could be your best time of the year.

Libra (SEPT. 24 – OCT. 23)

Is everyone on vacation but you? Hold the fort and hone those take-charge skills. Ask for a raise while you're at it, but wait 'til August. Just don't blow it all on new duds! Make the most of what you've got (fabulous); you're still a star with a full social calendar.

Aquarius (JAN. 21 – FEB. 18)

You're out of the loop at work, yet somehow you don't mind. Keep a low profile and your day will come. Meanwhile, enjoy the lazy days of summer. Do a good deed or two, but keep it close to home. Those near and dear need to know you're reliable.

Pisces (FEB. 19 – MAR. 20)

A new path marks love and security. Is it the Yellow Brick Road or a dead end? You'll never know unless you take the first step by speaking from your heart with a summer fling. Work on a new budget in August—an area that needs attention.

Star Struck

What the stars have planned for you

Gemini (MAY 22 – JUNE 21)

Your financial situation is a little like the weather: Hang on to your hat! The winds of change blow your way by summer's end. Just be sure to salt some away for a rainy day. Mostly, you breeze along in love and career, finding plenty of time for fun and friends.

Cancer (JUNE 22 – JULY 22)

The spotlight shines squarely on you, the stage is set. But someone forgot to give you the right script. Don't worry, improvised lines work best. Best summer strategy: get serious, but don't take yourself too seriously. With wanderlust hitting all-time highs, vacation plans may take you far afield.

Leo (JULY 23 – AUG. 23)

A sense of being overlooked begins to ease. Prepare to take your place in the sun by summer's end! Orchestrate new plans for advancement while creative projects get an unexpected boost. A summer romance appears on the horizon. Enduring? Temporary? Hard to say, but a pleasant diversion regardless.

Scorpio (OCT. 24 – NOV. 22)

Your intuition is working overtime all month. Go with what feels right, and you'll come out a winner. By August that might involve cutting a business partner loose. Meanwhile, do reveal your hidden romantic side. Wearing your heart boldly emblazoned on your sleeve works strangely in your favor.

Sagittarius (NOV. 23 – DEC. 21)

Your boundless energy and optimism go into overdrive! It seems like there's nothing you can't tackle. Don't spread yourself too thin, as is your habit. A favorite pastime, travel, gets a green light through August. But apply the breaks if you want to avoid a summer romance meltdown.

Capricorn (DEC. 22 – JAN. 20)

You're on the fence, with a feeling it's sinking in quicksand. It's time for a leap of faith, but only in positive directions. Don't get caught up in small stuff. In August, re-negotiate your living arrangements. Looking for a new mate? Late in the month would be optimal. A financial windfall may come at you from left field.

Adrian Grenier **Cancer**

born July 10, 1976 Brooklyn NY

Adrian seems to be a true Cancerian, with deep emotions that seem to pool in those intense yet slightly vulnerable, puppy-ish eyes. And he's as multi-talented as most of his sign, being an accomplished rock musician and actor. Known mostly for his role as "Vince" in *Entourage* and in *The Devil Wears Prada*, this hunk feels strong links to his mother, in this case one who raised him on her own. Note to ladies out to win his heart: never, but never, dis his mum! Adrian is coming to the end of a testing and maturing phase. He does have another movie slated for release this year, but 2008 is his power year, with big projects and more creative control ahead.

FOR as long as they can remember, Yasmin (Nathalia Ramos), Jade (Janel Parrish), Sasha (Logan Browning) and Cloe (Skyler Shaye) have been BFFs (Best Friends Forever). Inseparable since they first met, the young girls have always supported each other's individual personalities, talents and fabulous fashion styles.

Bratz

But now, as the foursome enter Carry Nation High, Yasmin, Jade, Sasha and Cloe face a brand new world: a blackboard jungle, where for the first time they discover life as a teenager means dealing with a system of social cliques, all strictly enforced by senior Meredith Baxter Dimly. Their individual attitude and passion for fashion make them the talk of the classroom—much to the annoyance of Meredith,

who just so happens to be the principal's daughter, and a self-proclaimed school princess.

But when the girls find themselves being pulled further and further apart, the girls band together and rise up as “the Bratz” to fight peer pressure, in turn learning how true empowerment means standing up for your friends, being true to oneself and living out one's dreams and aspirations.

Hot Fuzz JULY 31

Nicholas Angel (Simon Pegg) is the finest police officer London has to offer. He's so good he makes everyone look bad. As a result, Angel's superiors send him to a place where his talents won't be quite so embarrassing—the crime-free village of Sandford. With garden fêtes replacing the action of the city, Angel struggles to adapt. Partnered with Danny Butterman (Nick Frost), an oafish but well-meaning young constable, a series of grisly accidents leads Angel to believe there is something more sinister at work.

PARTY girl Lindsay Lohan is more of a mess than most realized. In a recent interview, Lohan's ex-bodyguard, Lee Weaver, reveals the troubled star was too much to handle. Weaver, 48, told *News of the World* that Lohan attacked a gun-wielding cocaine dealer for ripping her off, and claims she cut her wrists with knives. Lee also said that Lohan snorted line after line with *Simple Life* star Nicole Richie at parties and enjoyed lesbian romps with scores of girls she picked up at parties.

Young Hollywood out of control

Lee also claimed that Lohan "had a total death wish" and took more drugs and drank more than anyone he had ever met. "Every morning I'd breathe a sigh of relief she was still alive," he said. Lee spoke out after seeing pictures of a drunken Lohan pretending to cut one-time friend Vanessa Minnillo's throat with a kitchen knife. "I would pray every night she wouldn't kill herself on my watch. I desperately hope she stops using drugs."

Other young stars having trouble coping with fame are Nicole Richie, who is facing a DUI charge and possible jail time, Mischa Barton, who was recently hospitalized after she collapsed at a party thrown by Richie, Paris Hilton, who recently served time for driving with a suspended license and Britney Spears whose alleged drug and alcohol abuse led to her recent breakdown.
