Fun in the Sun

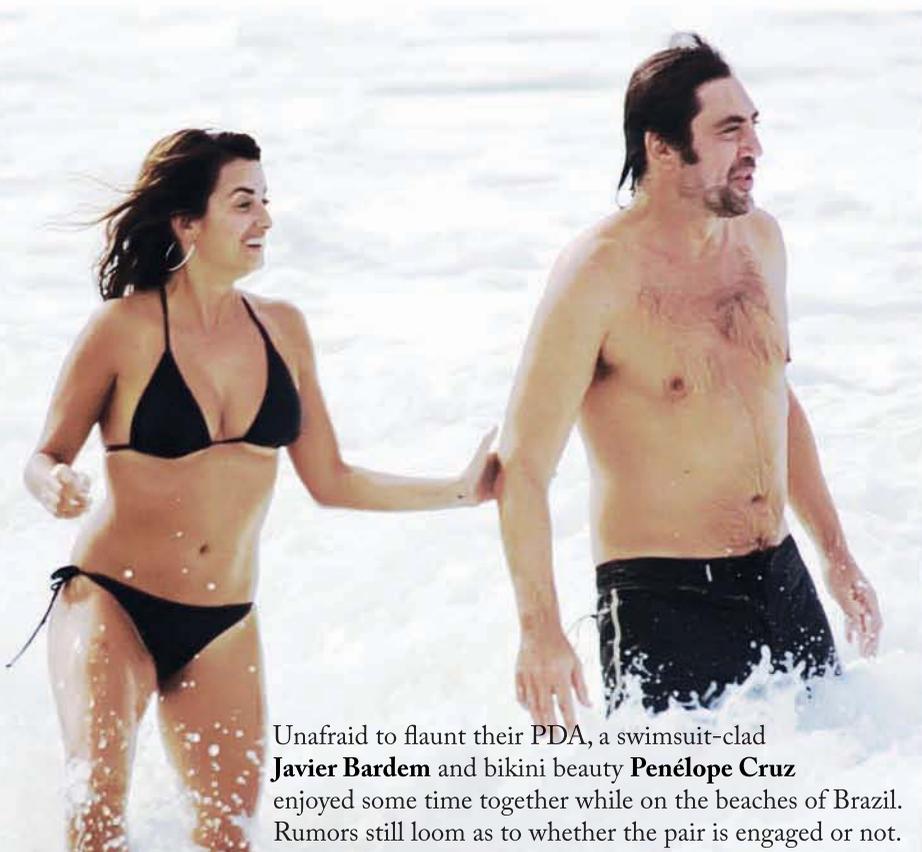

Stars take a break from the Hollywood life for some playtime!

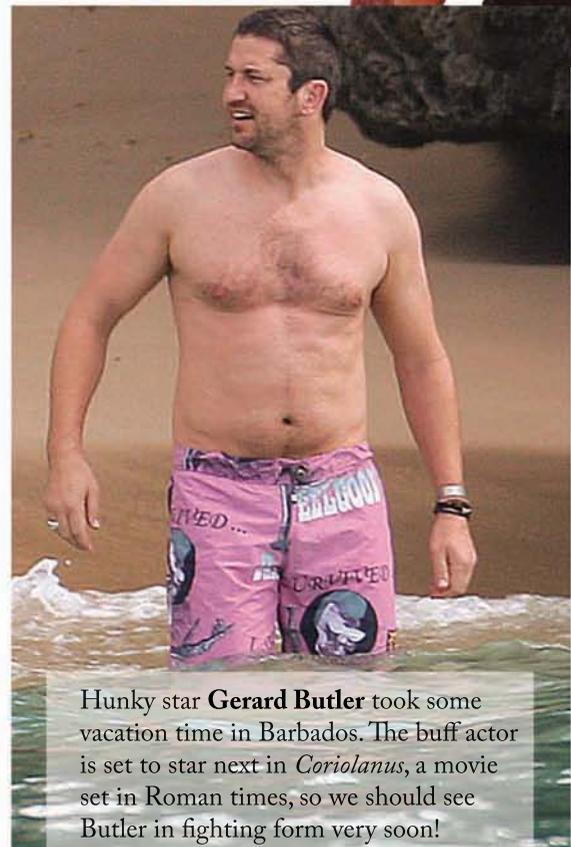

X-Men star **Hugh Jackman** showed off his abs while in Brazil. Jackman will need those strong abs to begin filming *Real Steel*, about a former boxer who gets one last shot at a comeback when he trains for the high-tech sport of robot boxing.

Halle Berry took some time to play in Miami. Since her breakup from long-time beau Gabriel Aubry, she's focusing on her daughter Nahla, but will hit the big screen next in *Frankie and Alice*.

Unafraid to flaunt their PDA, a swimsuit-clad **Javier Bardem** and bikini beauty **Penélope Cruz** enjoyed some time together while on the beaches of Brazil. Rumors still loom as to whether the pair is engaged or not.

Hunky star **Gerard Butler** took some vacation time in Barbados. The buff actor is set to star next in *Coriolanus*, a movie set in Roman times, so we should see Butler in fighting form very soon!

Celebrity Ups & Downs

Angelina to play Cleopatra

Angelina Jolie has signed on to play Cleopatra in a film adaptation of an upcoming new historical biography, a rep for the book's publisher, Little Brown, confirmed recently. The film's producer, Scott Rudin, acquired the rights to author Stacy Schiff's *Queen of the Nile, Cleopatra: A Life* with the 35-year old Jolie in mind for the title role. Michael Pietsch, publisher of Little Brown, said, "Angelina Jolie radiates grace and power, exactly the qualities that Stacy Schiff finds in her biography of the most intriguing ruler who ever lived."

Madonna and Gwyneth on the outs

Seems like Madonna and BFF Gwyneth Paltrow have gone to splitsville. "They don't speak," an inside source told *Us Weekly*. "I can't tell you exactly why they had the falling out, but Gwyneth can be jealous and competitive." Things apparently took a turn for the worse for the best buds when Madonna split from husband Guy Ritchie in 2008, leaving "Gwyneth and Madonna with less in common." Paltrow has been married to Coldplay singer Chris Martin since 2003.

Scarlett wins a Tony

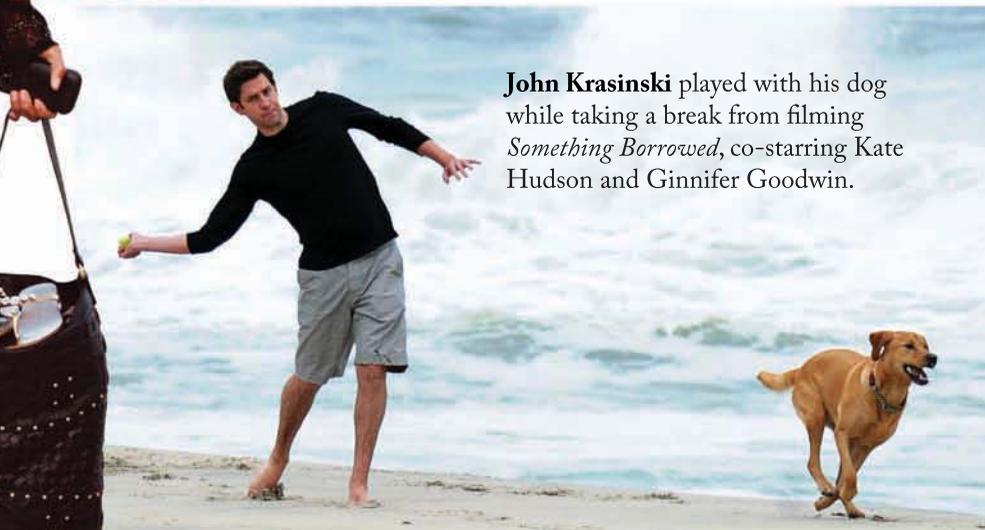

Scarlett Johansson won a Tony Award for best-featured performance as an actress for playing the object of her uncle's lust in Arthur Miller's *A View From the Bridge*. The role was Johansson's Broadway debut and something's she's always dreamed of doing. "Ever since I was a little girl I wanted to be on Broadway and here I am," said Johansson accepting the award during the ceremony at New York's Radio City Music Hall.

Royal Scandal

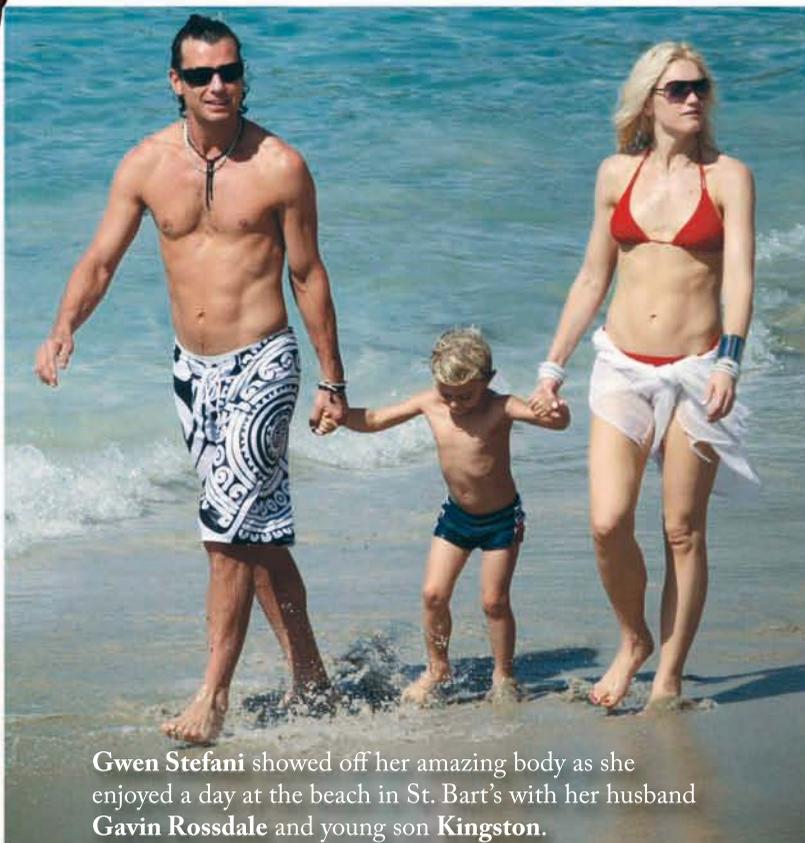

Disgraced Duchess of York, who claims she's broke, has apparently been living in a £ 1,500 per night luxury spa resort. Sarah Ferguson was recently caught in a sting operation where she was offering access to Prince Andrew for a \$500,000 fee. Fergie claimed her debt troubles and excessive drinking led to her shady dealings. Since the scandal broke, Fergie has been staying at a five-star Portuguese hideaway—signing up for an eight-day health program with a price tag of £3,000 on top of the room rates. "She really didn't look like someone who was stressed out with money worries," *News of the World* quoted a source.

Going...going...gone! **Kirsten Dunst** took some time off to soak in the sunshine in the south of France. Dunst stars in the upcoming *All Good Things*, with co-star Ryan Gosling, about one of New York City's most notorious murder mysteries.

John Krasinski played with his dog while taking a break from filming *Something Borrowed*, co-starring Kate Hudson and Ginnifer Goodwin.

Gwen Stefani showed off her amazing body as she enjoyed a day at the beach in St. Bart's with her husband **Gavin Rossdale** and young son **Kingston**.

Who is Salt?

Back in **ACTION!**

Angelina Jolie begs us to question whether she's good or bad in the upcoming spy thriller, *Salt*

Perhaps it's the perfect figure, beesting lips or artfully tousled mane. Or maybe it's the bad-girl persona—that racy past, all those tattoos—juxtaposed with her goodwill ambassador job and earth-mother ways. The bottom line is, Angelina Jolie's got it: sex appeal, kindness, charisma and the ability to take any role, in life or onscreen, and make it her own. Now she's back on the action-flick circuit with her white-hot role in *Salt* (July 2010), where she plays a CIA agent suspected of having gone rogue, and performs some pretty awesome stunts, sans body double.

The Jolie we see today, a poised mother of six who travels the world, dives fearlessly into war zones and often emerges with an adopted child on her hip, wasn't always quite so perfect. Her love life has never been simple—there was the often strange relationship with actor Billy Bob Thornton, to cite

one example. And her family life has been nothing short of complex, too: she recently made up with her actor father John Voight after years of estrangement.

But now, the 35-year-old star is with Hollywood golden boy Brad Pitt, and together the duo—known to a rapt public as Brangelina—have six children: Maddox, Pax and Zahara, who are adopted, and Shiloh and twins Knox and Vivienne, all conceived with Pitt. "I'm the happiest father ever," Pitt told *People* after the twins were born in 2008. "It is chaos, but we are managing it and having a wonderful time." And the couple is equally entranced with their adopted children. Later in the year, Jolie told *People* that adoption meant a lot to her because "there's something about making a choice, waking up and traveling somewhere and finding your family."

Jolie is officially a philanthropist of the highest order, and seems to have

shaken most of her wild-child ways. She's still got a definite edge, though, and that might be what makes her so fascinating to watch, in films or in the tabloids.

It's almost eerie how perfect the role of CIA officer Evelyn Salt in the electrifying action-thriller *Salt* is for Jolie. The question "Who is Salt?" is the thread that carries the movie, just like the question "Who is Angelina?" follows the actress through her life. Both women seem capable of everything, from sainthood to some incredible physical feats, of which this film has no shortage. The result is a story that's impossible to look away from. "I guess in essence [the role is] someone who's working for the CIA and is married and is accused of being KGB," Jolie recently told *Entertainment Weekly*. "She's being accused of that, and the question is whether she is that, or who she is at all."

The storyline in *Salt* is reminiscent of a Jason Bourne tale, and the main character was originally supposed to be a man—in

Is Salt a member of the KGB?

Jolie with co-stars Liev Schreiber and Chiwetel Ejiofor.

On the run: Evelyn Salt tries to clear her name.

Not afraid to get physical, Jolie does all her stunts to impress her kids

fact, Tom Cruise had signed on for it, but pulled out because he was concerned the main character was too similar to the one he plays as Ethan Hunt in *Mission Impossible*. In the film, Salt is accused by a Russian captive of being a sleeper spy on a mission to kill the president in Manhattan. She must run for her life and use every bit of her training, experience and fortitude to elude capture and protect her husband. If she's caught, her entire existence will be erased. The stakes couldn't be higher, and the action scenes apparently feature some of Jolie's best physical work.

Jolie has a long history of playing hardboiled action roles, and is well known for her part as the sexily invincible Lara Croft in the *Tomb Raider* series. Voight said his daughter threw herself into her stunt work during the *Tomb Raider* movies in a manner that was almost frightening. "I'd be on the sidelines with the stunt coordinator saying, 'You're pushing her

too hard,' or pulling her aside and telling her she was taking too many risks," Voight told the *New Zealand Herald*. "But she wouldn't listen. She's too independent, too headstrong."

Offscreen, it seems there's nothing Jolie can't do—she even got her pilot's license just to impress her son, Maddox. "Every time Mad sees a plane, he's amazed," Jolie told *People*. "If I could actually fly a plane by the time he's 4, I'll be like Superman to him."

And Jolie told *Entertainment Weekly* she loves doing her stunts herself. "My kids think it's cool," she said. She also revealed that she was hospitalized during the filming of *Salt* when she fell on her head during a fight scene. Despite the risks, she refuses a stunt double, because she says the action scenes help keep her physically strong. Maybe Jolie really is a superhero.

Facing prison time for slander, discredited journalist Mikael Blomkvist (Michael Nyqvist) is hired by a reclusive industrialist for one last job—to solve a long unresolved family disappearance. Aided by the mysterious and troubled computer hacker, Lisbeth Salander

(Noomi Rapace), the two uncover a darker world of brutality, deception and ritualistic murder.

THE RUNAWAYS

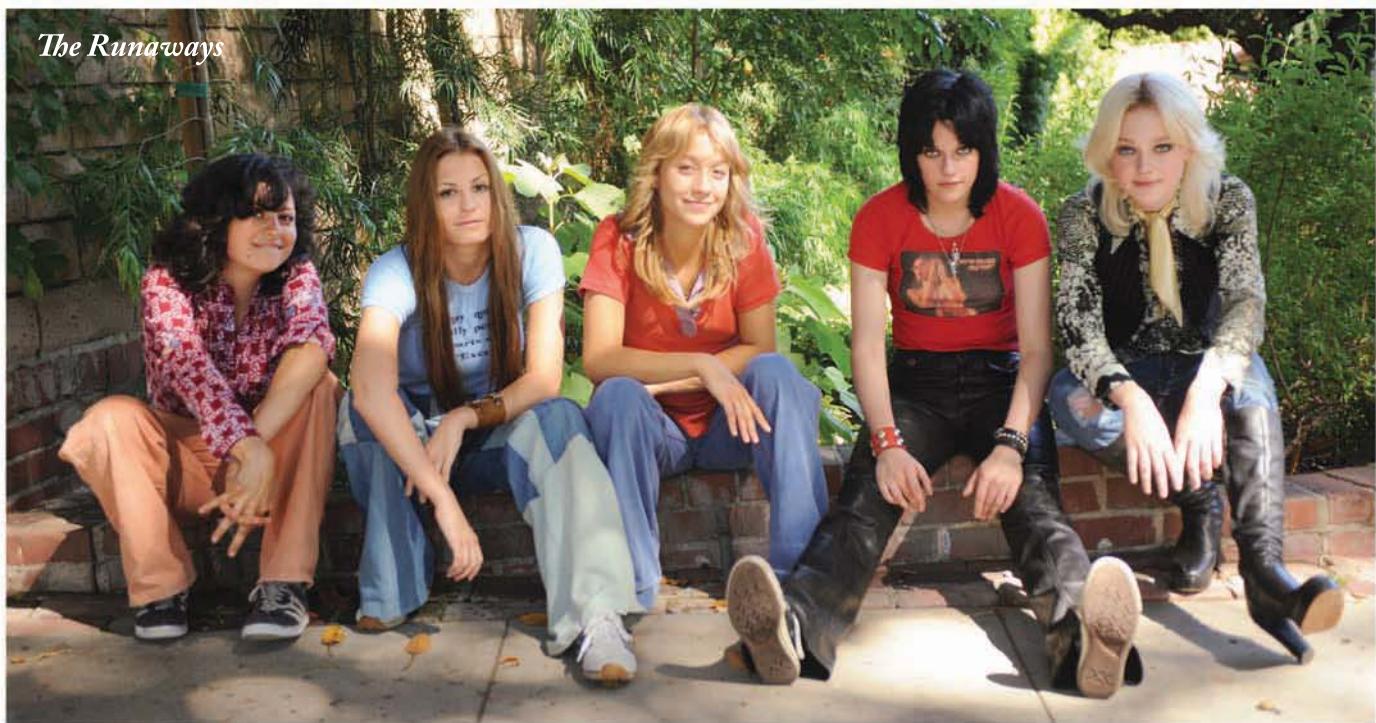

July 20

In Los Angeles in 1975, Joan Jett (Kristen Stewart) and Cherie Currie (Dakota Fanning), two teenage Valley girls with punk in their blood, meet and become the heart and soul of the seminal all-girl band, The Runaways. Under the Svengali-like influence of rock impresario Kim Fowley (Michael

Shannon), the group evolves into an outrageous success and a family of misfits.

COP OUT

key to millions of dollars in offshore bank accounts—and who has witnessed a high-profile murder.

Remy (Jude Law) is one of the best organ repo men in the business. But when he suffers a cardiac failure on the job, he awakens to find himself fitted with the company's top-of-the-line heart replacement...as well as a hefty debt. But a side effect of the procedure is that

his heart's no longer in the job. When he can't make the payments, The Union sends its toughest enforcer, Remy's former partner Jake (Forest Whitaker), to track him down.

BLAKE LIVELY, Virgo, born August 25, 1987, Tarzana, CA. The sign of Virgo is supposed to be all about chastity. Yet, from Sophia Loren to Beyoncé, a high proportion of sexy women are born under it. With five planets in that sign, not a usual occurrence, this June 2010 *Vogue* cover model knows how to work the cleavage. But she also has the Virgo smarts and work ethic to parlay her success in the hit movie *The Sisterhood of the Traveling Pants* and *Gossip Girl*, one of TV's hottest shows, into a solid film career. With starring roles in two major movies coming up, her star is on the rise. And her relationship with Scorpio Penn Badgley looks solid if he can accept her career eclipsing his. This might be the year Blake proves you can have it all.

STAR STRUCK

What the stars have planned for you

ARIES (March 21 – April 20)

The road to vacation paradise lies smooth and clear, even if it's just a staycation. In fact, you seem to have the most fun around your own barbecue. In August it's best to tend to business and keep production on schedule. Fresh opportunities are in the script, and you're casting new supporting players.

TAURUS (April 21 – May 21)

If you're looking, a new romantic lead could enter your life. Whatever your status, you'll play out more than one steamy summer love scene in July. An unsettled work scenario keeps you hopping in August. But who cares, with such an action-filled and social scenario unfolding around home base?

GEMINI (May 22 – June 21)

A big move or home reno project may finally get the green light in July. Do take time out to enjoy the summer, perhaps indulging your culture-vulture side at a summer festival or two. By August you'll be more than ready for a bigger break. Sign agreements and book trips before the 20th.

CANCER (June 22 – July 22)

A new moon in your sign this July helps melt some of your famous shyness. It's your month to shine! The most likely route to your heart's desire: Speak up and let others know what you want. Big changes are afoot come August. You might find yourself in a whole new relationship and career script.

LEO (July 23 – August 23)

Batten down the hatches: friendships are in for some summer squalls. Fortunately, you're more firmly anchored in career matters than you think. By August, you're ready to steer into uncharted waters, perhaps through a course or skills upgrade. Someone you meet intrigues you, and it's mutual.

VIRGO (August 24 – September 23)

Venus graces your sign in July. Your powers of attraction blaze hotter than barbecue coals then. Although your partner may need more space now, you'll easily find new friends and allies. In August you'll likely need to get a financial matter under control. It's a great month for a spa getaway or a makeover.

LIBRA (September 24 – October 23)

Expect a few relationship squalls this summer, then back to smooth sailing. If you're discontent with less-than-star billing at work, send out resumés this July. You're at your most confident best in August. Venus in your sign ups your charisma. You'll shine, and a new attraction will be dazzled.

SCORPIO (October 24 – November 22)

You're screening summer blockbuster vacation plans. Make your big break during July, if you can. Because August has you all fired up with someplace to go – mostly in pursuit of career success. This could be the month you get your big break. A raise or bonus is also likely around mid-month.

SAGITTARIUS (November 23 – December 21)

You're so ready to hit the road. Try to hold off, as July brings plenty of career opportunity. Networking is key. The way you handle money may come under question in August. Don't assume you have all the answers and exercise caution. It's also a great time to finally make that getaway.

CAPRICORN (December 22 – January 20)

Longing to get out of a rut? July is optimal for upgrading your surroundings. And any getaway you take will definitely have a romantic subplot. By August, you're ready to return to more mundane matters. You're also in an optimum position to move up the ladder.

AQUARIUS (January 21 – February 18)

You come to an important realization: the party is wherever you happen to find yourself – and a special someone. And you'll likely take the show on the road to a favourite getaway spot. Money and friends just don't mix in August. Resist flashing the credit cards to help anyone else out.

PISCES (February 19 – March 20)

You may have to postpone your vacation plans. No worries: You'll not only save money but be ready to pounce when a new position opens up. By August you're able to get a clear vision of your future direction. Friends both new and old rally round and help you make all the right connections.
